OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

Circular No. C. 2655—26-27, *dated* 9—15*th February* 1927.

Numerous instances have come to the notice of the undersigned of miscellaneous revenue cases being posted for hearing at random without reference to the other engagements of the Officers concerned and the probability of the case being actually taken up on the date on which it is posted. The result is that the disposal of such cases is unnecessarily protracted. and much inconvenience and delay are caused by frequent adjournments.—It is necessary that proper arrangements should be made for the disposal of such cases as far as possible on the very first day on which these cases come up for hearing. All Revenue Officers are requested to so arrange the posting of cases hereafter so that this work does not conflict with their other engagements and the cases are disposed of invariably on such dates—Adjournments should not ordinarily be granted and when absolutely necessary, the reasons should be noted in detail in the records. All the information necessary for the disposal of a case should be collected and got ready before the hearing so that cases may not, as a rule, be put off for want of sufficient information on any particular point or other cause. The Deputy Commissioners are requested to impress the importance of this circular on their subordinate officers and see that they do not give room for avoidable delays. The attention paid to the disposal of miscellaneous cases should be examined by the Inspecting Officer and the names of Officers who show any tendency not to deal with such cases promptly should be reported to the undersigned.

P. G. D'SOUZA,
Revenue Commissioner.
